— END OF SALE —

THE HOT AIR PAGE

We are pleased to announce that our schedule for the coming year includes at least two major floor auctions. In January we have a mail and floor bid auction in conjunction with the Greater Houston Coin Club "Money Show". Consignments for this sale need to be in our hands by November 15th. For this sale we are particularly interested in U.S., Mexican, and Latin American items.

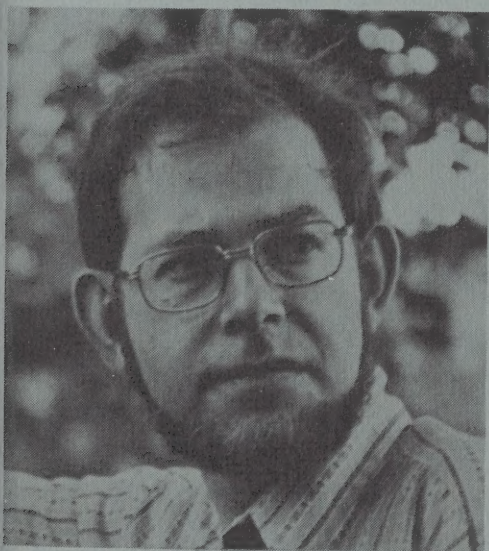

We are very honored to be awarded the auction for the Canadian Numismatic Association (CNA) Convention next August in Vancouver, British Columbia. We recently attended the CNA meeting in Ottawa and were again pleased by the warmth and courtesy shown there as well as the interest shown for all phases of numismatics rather than just the bourse. I would recommend you including a trip to Vancouver in your travel plans for next August.

We may hold a mail bid sale this December if sufficient consignments are in our hands by the end of September. We have tentatively scheduled a mail bid sale for April. We would be pleased to discuss with you consignment possibilities. We also will purchase collections outright if you so desire.

Please keep in mind that we are always interested in purchasing out-of-print numismatic literature whether single books or complete libraries. We are continually expanding our library and frequently the only way to obtain some publications is to buy other libraries intact.

A facet of our sales which may be of interest to bidders or potential consignors, is that generally more than 1/2 of our consignors in any sale are from overseas. To date, we have had consignments out of every European country with the exception of Italy. We continually receive consignments from other parts of the world. In regards to consignments, we are only interested in lots which are worth \$25 or more. Our minimum acceptable consignment is \$500 worth of material. If we can be of any help in the marketing and appraisal of your holdings, please feel free to call or write. We are continually striving to upgrade the quality and value of the material offered in these sales.

In the current sale, estimates have been provided for some lots. We always have estimates available on all the lots appearing in our catalog. In this sale, we have published estimates where space was available. On bulk lots, the estimates may well be too high but represent retail value. Lots may be sold considerably above or below estimates.

I would expect that our regular bidders do not judge a book by its cover. We have published an overseas edition of our current sale on much lighter paper resulting in a savings of postage amounting to \$650. I would appreciate any comments by bidders or consignors regarding the format of our catalogs.
